

Alexey Antipov

iOS Developer, Barcelona | mail@ress.ws | telegram: alexantipov

SUMMARY

Motivated and reliable iOS software engineer with 3 years experience with Swift, SwiftUI and a wide range of full-stack skills. Have working applications in the AppStore, web, and GitHub

✓ Spanish residence and work permit

TECHNICAL SKILLS

Swift and SwiftUI. iOS and MacOS application development.

— Developed an iOS app for energy startup Energram. [AppStore link](#).

— Created an app to memorize foreign words by AI-generated flashcards on any topic of the user's choice. [GitHub link](#).

Both apps have a backend part also developed by me.

— Created a [complete audio player for Mac OS](#) with tabs and FLAC support.

Python. Backends for many projects. FastAPI, Django, Flask, telegram bots. For example: [REST API MVC backend](#), [monitoress](#) and [pomodoress](#) telegram bot.

Web development: JavaScript, Vue.js, HTML, CSS

MongoDB and PostgreSQL databases. Docker, Redis, RabbitMQ, Linux, PyTest, Microservices

WORK EXPERIENCE

— Developed an online advertising automation system using full-stack skills with Python FastAPI backend, REST API and Vue.js for the client-side ([foldwrap.com](#)). With the platform, digital agencies get reliable tools for delivery creatives to their clients and coordinate data integrity. Reducing creatives resize and delivery time from 6 to 3 hours.

2024
Full-stack developer
Self-employed

— Developed an iOS app to memorize foreign words by AI-generated flashcards on any topic of the user's choice. [GitHub link](#).

2023
Self-employed

— Created from scratch a MVP for energy startup including iOS application, backend and frontend using native Swift and SwiftUI, REST API for communication between back and front-end, responsive web client. [AppStore link](#).

2020 — 2022
Full-stack developer
Self-employed
